1.3 CONSTRUCTION SOLUTIONS

Construction Solutions That Drive Progress

Modern construction demands equipment that delivers performance, efficiency, and reliability.

Burgenton construction equipment is designed to help contractors, developers, and infrastructure companies complete projects faster, reduce operating costs, and maximize productivity.

Whether you are building housing estates, commercial developments, roads, bridges, or industrial facilities, Burgenton provides equipment solutions that keep projects moving.

Applications:

- Road Construction
- Housing Development
- Commercial Construction
- Infrastructure Projects
- Industrial Facilities

1.4 AGRO-PROCESSING SOLUTIONS

Powering Agricultural Value Addition

Africa's agricultural future depends on efficient processing and value addition.

Burgenton agro-processing equipment helps farmers, cooperatives, processors, and manufacturers transform raw agricultural products into higher-value products ready for local and international markets.

From rice and maize processing to cassava and palm oil production, our equipment is designed to improve efficiency, product quality, and profitability.

Applications:

- Cocoa Processing
- Cassava Processing
- Palm Oil Processing
- Cashew Processing

PAGE 2: ABOUT BURGENTON EQUIPMENT

Building Reliable Equipment Solutions for Africa's Growth

Burgenton Equipment was established with a clear purpose: to provide reliable, high-performance equipment that supports Africa's construction, industrial, and agricultural development.

As infrastructure expands and industries grow across the continent, businesses require equipment they can depend on to deliver results efficiently and profitably. Burgenton exists to meet that need through quality equipment, dependable support, and long-term partnerships.

We believe that reliable equipment is more than a machine, it is an investment in productivity, growth, and opportunity.

2.1 OUR STORY

Africa is experiencing rapid growth in infrastructure, urban development, and agricultural industrialization.

Yet many businesses continue to face challenges in accessing equipment that combines performance, reliability, technical support, and long-term value.

Burgenton Equipment was created to bridge this gap.

Our goal is to provide equipment solutions that empower contractors, developers, processors, manufacturers, and entrepreneurs to operate more efficiently and compete more effectively.

Today, Burgenton Equipment serves customers across multiple sectors, supplying equipment designed to support the continent's development ambitions while delivering exceptional value to our customers.

2.2 LEADERSHIP & VALUES

OUR VISION

To become Africa's most trusted equipment brand, supporting sustainable growth through innovative, reliable, and accessible equipment solutions

OUR MISSION

To provide high-performance construction and agro-processing equipment backed by dependable support, genuine spare parts, and customer-focused service that enables businesses to build, produce, and grow with confidence.

OUR CORE VALUES

- Reliability

We understand that our customers depend on their equipment to keep projects moving and businesses operating.

Reliability is at the heart of everything we do, from product selection and quality standards to spare parts availability and customer support.

When customers choose Burgenton, they choose a partner they can depend on.

- Customer Success

Our success is measured by the success of our customers.

We strive to understand our customers' challenges and provide solutions that improve productivity, efficiency, and profitability.

Every machine we supply is backed by a commitment to helping our customers achieve their goals.

- Quality Without Compromise

We believe quality is not an option, it is a responsibility.

We maintain high standards across our products, services, and customer interactions to ensure that every Burgenton solution delivers long-term value and dependable performance.

- Accountability

We stand behind our products, our commitments, and our promises.

We take responsibility for delivering exceptional service, providing dependable support, and building lasting relationships based on trust.

Accountability defines how we work and how we serve our customers.

- Continuous Improvement

Markets evolve, industries change, and customer needs grow.

We embrace innovation, learning, and continuous improvement to ensure that Burgenton remains a trusted partner for the future.

We are committed to finding better ways to serve our customers and strengthen our business.

- Partnership

We believe lasting success is built through strong relationships.

We work closely with customers, dealers, suppliers, and stakeholders to create mutual value and sustainable growth.

Our approach is based on collaboration, respect, and shared success.

- Building Africa's Future

We are committed to supporting Africa's economic growth through reliable equipment solutions that enable construction, industrial development, and agricultural transformation.

We believe that every project completed, every business expanded, and every opportunity created contributes to a stronger future for the continent.

This commitment guides our decisions and inspires our mission.

OUR PROMISE

Every machine carrying the Burgenton name represents our commitment to quality, reliability, support, and customer success.

We are proud to stand behind our products and the businesses that depend on them.

Burgenton Equipment.

Engineered for Africa. Built to Perform.

2.3 QUALITY & SUPPORT

BURGENTON QUALITY STANDARDS

Quality is fundamental to everything we do.

Every Burgenton product is selected, tested, and supported according to strict standards designed to ensure reliability, durability, and performance.

Our quality philosophy is built on four principles:

- PERFORMANCE

Equipment must consistently deliver results under demanding operating conditions.

- RELIABILITY

Customers depend on our equipment to keep projects and operations moving forward.

- DURABILITY

Machines must be capable of operating effectively in challenging environments.

- CONTINUOUS IMPROVEMENT

We continuously evaluate products, customer feedback, and industry developments to enhance the value we provide.

Our commitment to quality helps customers maximize productivity while minimizing downtime and operating costs.

OUR WARRANTY

Purchasing equipment is the beginning of a relationship, not the end of a transaction.

Burgenton Equipment provides comprehensive after-sales support designed to help customers operate with confidence.

Our support services include:

- Manufacturer Warranty Coverage
- Genuine Spare Parts Availability
- Technical Assistance
- Equipment Commissioning Support
- Operator Training
- Preventive Maintenance Guidance
- Product Documentation

Our objective is simple: to help customers achieve maximum uptime and long-term equipment performance.

2.4 OUR COMMITMENT TO AFRICA

Supporting Growth. Creating Opportunity. Enabling Progress.

Africa is one of the world's most dynamic and promising regions.

Across the continent, infrastructure is expanding, cities are growing, industries are developing, and agricultural transformation is creating new opportunities for economic advancement.

At Burgenton Equipment, we believe reliable equipment plays a vital role in this journey.

Our mission extends beyond supplying machines.

We are committed to supporting the projects, businesses, and industries that are helping shape Africa's future.

SUPPORTING AFRICAN INFRASTRUCTURE DEVELOPMENT

Building the Foundations of Growth

Infrastructure is essential to economic development.

Roads, housing, commercial buildings, industrial facilities, utilities, and public infrastructure create the foundation for investment, productivity, and improved quality of life.

Burgenton construction equipment supports contractors, developers, and project owners working to build the infrastructure that connects communities and drives economic growth.

Through reliable equipment solutions, we help improve project efficiency, increase productivity, and support successful project delivery.

Areas We Support

- Housing Development
- Road Construction
- Commercial Projects
- Industrial Facilities
- Public Infrastructure
- Community Development Projects

SUPPORTING AGRO-INDUSTRIALIZATION

Unlocking the Potential of Agriculture

Agriculture remains one of Africa's most important economic sectors.

However, long-term growth requires more than production alone.

It requires processing, value addition, and industrial development.

Burgenton agro-processing equipment helps businesses transform agricultural products into higher-value goods that create greater economic impact.

By supporting processing operations, we contribute to stronger agricultural supply chains, improved food security, and increased business opportunities.

Areas We Support

- Cocoa Processing
- Cassava Processing
- Palm Oil Processing
- Cashew Processing
- Food Manufacturing
- Agricultural Processing Facilities

ENABLING LOCAL VALUE ADDITION

Creating More Value Within Africa

Many agricultural products are still sold as raw commodities, limiting economic opportunities and reducing potential returns for producers.

We believe greater value should be created closer to the source of production.

Through reliable processing equipment, Burgenton helps businesses transform raw agricultural products into finished and semi-finished products with greater market value.

Value addition helps strengthen local industries, improve profitability, and create more resilient economies.

Benefits of Value Addition

- ✓ Increased Product Value
- ✓ Improved Market Opportunities
- ✓ Enhanced Business Profitability
- ✓ Stronger Local Industries
- ✓ Increased Export Potential

CREATING JOBS THROUGH MECHANIZATION

Improving Productivity While Expanding Opportunity

Mechanization is often misunderstood as replacing jobs.

In reality, effective mechanization helps businesses grow, become more competitive, and create new employment opportunities throughout the value chain.

When projects are completed more efficiently and processing operations expand, demand increases for operators, technicians, supervisors, logistics providers, maintenance specialists, and support services.

Burgenton equipment helps businesses improve productivity while contributing to broader economic development.

Impact Areas

- Equipment Operations
- Technical Services

- Maintenance Support
- Logistics and Distribution
- Agricultural Processing
- Industrial Development

HELPING BUSINESSES SCALE EFFICIENTLY

Supporting Sustainable Growth

Growing businesses require reliable systems, efficient operations, and dependable equipment.

Whether expanding construction capacity, increasing processing output, or entering new markets, businesses need solutions that support growth without compromising productivity.

Burgenton provides equipment solutions that help organizations scale operations efficiently while maintaining quality, reliability, and performance.

We are committed to helping businesses move from small-scale operations to larger, more competitive enterprises.

Business Benefits

- ✓ Increased Productivity
- ✓ Improved Operational Efficiency
- ✓ Greater Production Capacity
- ✓ Reduced Downtime
- ✓ Sustainable Business Growth

OUR COMMITMENT

At Burgenton Equipment, we believe equipment is more than a tool.

It is an enabler of development, productivity, and opportunity.

Every machine we deliver represents our commitment to supporting the businesses, projects, and industries that are helping build Africa's future.

As we continue to grow, we remain focused on providing reliable equipment solutions that contribute to stronger industries, more competitive businesses, and sustainable economic progress across the continent.

BUILDING AFRICA TOGETHER

Infrastructure creates opportunity.

Agriculture creates prosperity.

Industry creates growth.

Burgenton Equipment is proud to support all three.

Together, we can build a stronger future for Africa.

PAGE 3: PRODUCTS

Burgenton Equipment provides a comprehensive range of construction and agro-processing equipment designed to help businesses improve productivity, efficiency, and profitability.

Whether you are building infrastructure, developing housing projects, expanding industrial operations, or increasing agricultural value addition, Burgenton delivers dependable equipment solutions backed by technical support, warranty protection, and genuine spare parts.

Explore our product categories below.

3.1 CONSTRUCTION EQUIPMENT

Reliable equipment designed to support infrastructure development, construction projects, and industrial operations across Africa.

Built for performance, durability, and efficiency, Burgenton construction equipment helps contractors and project owners complete projects faster while controlling operating costs.

3.1.1 Self-Loading Mobile Concrete Mixers:

Produce, mix, transport, and discharge concrete using a single machine.

Burgenton Self-Loading Mobile Concrete Mixers are engineered to simplify concrete production by combining material loading, batching, mixing, transportation, and concrete discharge into one highly efficient machine.

Designed for contractors, developers, infrastructure companies, and concrete producers, these versatile machines eliminate the need for multiple pieces of equipment, helping businesses reduce operating costs, improve productivity, and maintain complete control over concrete production on-site.

Whether working on housing developments, commercial buildings, road projects, industrial facilities, or remote construction sites, Burgenton Self-Loading Mobile Concrete Mixers deliver reliable performance wherever your project takes you.

Ideal For:

- Construction Companies
- Real Estate Developers
- Infrastructure Contractors
- Government Projects
- Concrete Producers
- Equipment Rental Companies
- Industrial Construction Projects
-

Key Benefits:

- ✓ Load, Batch, Mix, Transport, and Pour with One Machine
- ✓ Produce Concrete Directly on Site
- ✓ Reduce Labour Requirements
- ✓ Lower Concrete Transportation Costs
- ✓ Improve Project Productivity
- ✓ Consistent Concrete Quality
- ✓ Operate Efficiently in Remote Locations
- ✓ Easy Operation and Maintenance

Why Choose Burgenton Self-Loading Mobile Concrete Mixers?

Every Burgenton Self-Loading Mobile Concrete Mixer is designed to deliver reliable performance, operational flexibility, and long-term value.

By combining multiple construction processes into a single machine, our mixers help customers reduce equipment investment, improve job site efficiency, and complete projects more quickly.

Supported by genuine spare parts, comprehensive warranty protection, technical expertise, and responsive after-sales service, Burgenton provides customers with the confidence to keep projects moving.

Available Configurations:

- Compact Models for Small Projects
- Medium-Capacity Models for Residential and Commercial Construction
- High-Capacity Models for Large Infrastructure Projects
- Four-Wheel Drive Models for Challenging Terrain

Applications:

- Housing Developments
- Commercial Construction
- Road Construction
- Infrastructure Projects

- Industrial Facilities
- Rural and Remote Construction
- Municipal Projects
- Concrete Supply Operations
-

Why Contractors Choose Self-Loading Mobile Concrete Mixers

Traditional concrete production often requires separate loaders, batching equipment, transit mixers, and additional labour.

A Burgenton Self-Loading Mobile Concrete Mixer combines these functions into one integrated solution, enabling contractors to produce concrete whenever and wherever it is needed.

This results in:

- ✓ Faster Project Delivery
- ✓ Lower Equipment Investment
- ✓ Reduced Labour Costs
- ✓ Improved Concrete Quality Control
- ✓ Greater Operational Flexibility
- ✓ Increased Profitability

Built for African Construction

Construction projects across Africa often require equipment that performs reliably in diverse environments, from busy urban developments to remote infrastructure projects.

Burgenton Self-Loading Mobile Concrete Mixers are designed to meet these challenges, delivering dependable performance, durability, and mobility where they are needed most.

Whether your project is in a city centre, a growing residential community, or a remote construction site, Burgenton helps you build with confidence.

3.1.2 Mobile / Compact Concrete Batching Plants:

Efficient Concrete Production Wherever Your Project Takes You

Burgenton Mobile and Compact Concrete Batching Plants provide a flexible, reliable, and efficient solution for producing high-quality concrete directly at or near your project site.

Designed for contractors, developers, and infrastructure companies, these plants combine accurate batching, ease of transportation, and quick installation, making them ideal for projects where mobility, space efficiency, and consistent concrete quality are essential.

Whether supporting housing developments, road construction, commercial buildings, or remote infrastructure projects, Burgenton batching plants help improve productivity while reducing transportation costs and project delays. Ideal For:

- Housing Developments
- Road Construction
- Commercial Projects
- Infrastructure Development
- Remote Construction Sites
- Ready-Mix Concrete Operations

Key Benefits:

- ✓ Fast Installation and Relocation
- ✓ Compact Design with Minimal Site Requirements
- ✓ Consistent and Accurate Concrete Production
- ✓ Reduced Concrete Transportation Costs
- ✓ Increased Project Flexibility
- ✓ Reliable Performance and Easy Operation

Why Choose Burgenton Mobile / Compact Concrete Batching Plants?

Every Burgenton batching plant is designed to deliver dependable performance while supporting efficient project execution. Backed by genuine spare parts, technical support, and warranty protection, our solutions help contractors maintain productivity and deliver projects with confidence.

Available Configurations:

- Mobile Concrete Batching Plants

- Compact Concrete Batching Plants
- Modular Batching Solutions
-

Applications:

- Residential Construction
- Commercial Developments
- Road and Bridge Projects
- Industrial Facilities
- Government Infrastructure Projects

3.1.3 Concrete Pumps:

Efficient Concrete Placement for Faster Project Delivery

Burgenton Concrete Pumps are designed to deliver concrete quickly, accurately, and efficiently to locations that are difficult or time-consuming to reach using traditional methods.

Whether pumping concrete to upper floors, across large construction sites, or into confined areas, our concrete pumps help contractors improve productivity, reduce labour requirements, and maintain consistent concrete placement.

Built for reliability and performance, Burgenton Concrete Pumps support residential, commercial, industrial, and infrastructure projects where speed, precision, and efficiency are essential.

Ideal For:

- Construction Companies
- Real Estate Developers
- Infrastructure Contractors

- Commercial Building Projects
- Industrial Construction
- Concrete Supply Companies
- Equipment Rental Companies
-

Key Benefits:

- ✓ Fast and Efficient Concrete Placement
- ✓ Reduced Labour Requirements
- ✓ Increased Construction Productivity
- ✓ Consistent Concrete Delivery
- ✓ Safe Placement in Elevated and Restricted Areas
- ✓ Reduced Project Completion Time
- ✓ Reliable Performance in Demanding Conditions

Why Choose Burgenton Concrete Pumps?

Every Burgenton Concrete Pump is engineered to provide dependable performance, efficient concrete delivery, and long-term reliability.

Supported by genuine spare parts, technical expertise, operator guidance, and comprehensive warranty protection, our pumps help contractors complete projects faster while maintaining high construction standards.

Whether used independently or alongside Burgenton Self-Loading Mobile Concrete Mixers and Mobile / Compact Concrete Batching Plants, our concrete pumps deliver a complete concrete production and placement solution.

Available Configurations:

- Trailer-Mounted Concrete Pumps
- Truck-Mounted Concrete Pumps
- Boom Concrete Pumps
- Line Concrete Pumps

Applications:

- Multi-Storey Buildings
- Housing Developments
- Commercial Construction
- Bridges and Flyovers
- Industrial Facilities
- Foundations and Slab Construction
- Water and Drainage Infrastructure
- Large Concrete Pouring Projects
-

Complete Your Concrete Solution

For maximum productivity, Burgenton Concrete Pumps integrate seamlessly with our concrete production equipment.

Built for African Construction

Construction projects across Africa require equipment that is dependable, efficient, and capable of performing in diverse environments.

Burgenton Concrete Pumps are built to support contractors working on everything from residential developments and commercial buildings to major infrastructure projects, delivering reliable performance wherever concrete needs to be placed.

3.1.4 Block Making Machines:

Building Stronger Communities, One Block at a Time

Burgenton Block Making Machines are engineered to produce high-quality concrete blocks efficiently, consistently, and cost-effectively.

Designed for entrepreneurs, contractors, real estate developers, and block manufacturers, our machines help increase production capacity while maintaining the strength and uniformity required for modern construction projects.

Whether supplying blocks for housing developments, commercial buildings, infrastructure projects, or local markets, Burgenton provides reliable equipment solutions that support business growth and quality construction.

Ideal For:

- Block Manufacturing Businesses
- Real Estate Developers
- Construction Companies
- Housing Development Projects

- Government Housing Programmes
- Building Material Suppliers

Key Benefits:

- ✓ Consistent High-Quality Block Production
- ✓ Increased Daily Production Capacity
- ✓ Improved Production Efficiency
- ✓ Reduced Labour Requirements
- ✓ Durable and Reliable Performance
- ✓ Easy Operation and Maintenance

Why Choose Burgenton Block Making Machines?

Every Burgenton Block Making Machine is designed to deliver dependable performance and long-term value. Supported by genuine spare parts, technical assistance, and warranty protection, our machines help customers produce quality building materials with confidence.

Available Configurations:

- Manual Block Making Machines
- Semi-Automatic Block Making Machines
- Fully Automatic Block Production Lines
- Multi-Block Mould Configurations

Applications:

- Residential Housing Projects
- Commercial Developments
- Infrastructure Projects
- Community Housing Schemes
- Concrete Block Manufacturing Businesses
- Construction Material Supply Operations

4.1.5 Backhoe Loaders:

One Machine. Multiple Capabilities.

Burgenton Backhoe Loaders combine digging, loading, lifting, and material handling capabilities into one versatile machine, providing an efficient solution for a wide range of construction, utility, and infrastructure projects.

Designed for contractors, developers, municipalities, and equipment rental companies, our backhoe loaders deliver the flexibility needed to perform multiple tasks while reducing equipment costs and improving job site productivity.

Whether preparing construction sites, excavating trenches, loading materials, or carrying out maintenance works, Burgenton Backhoe Loaders are built to help you work efficiently and confidently.

Ideal For:

- Construction Companies
- Infrastructure Contractors
- Utility Companies
- Local Government Projects
- Equipment Rental Companies
- Property Developers

Key Benefits:

- ✓ Multi-Purpose Machine for Digging and Loading
- ✓ Reduced Equipment Investment Costs
- ✓ Increased Job Site Productivity
- ✓ Excellent Mobility Between Work Sites
- ✓ Reliable Performance in Demanding Conditions
- ✓ Easy Operation and Maintenance

Why Choose Burgenton Backhoe Loaders?

Every Burgenton Backhoe Loader is designed to deliver dependable performance, operational flexibility, and long-term value. Backed by genuine spare parts, technical support, and warranty protection, our machines help customers complete more work with confidence while maximizing equipment utilization.

Available Configurations:

- Standard Backhoe Loaders
- Extended Reach Backhoe Loaders
- Four-Wheel Drive (4WD) Models
- Multiple Bucket and Attachment Options

Applications:

- Site Preparation
- Road Construction
- Utility Installation
- Trenching and Excavation
- Material Loading and Handling
- Landscaping and Municipal Works

3.1.6 Electric Fork Lift:*Smarter Material Handling for Modern Businesses*

Burgenton Electric Forklifts are designed to deliver safe, efficient, and reliable material handling for warehouses, factories, logistics centres, construction sites, and agro-processing facilities.

Combining powerful performance with quiet operation and low operating costs, our electric forklifts help businesses improve productivity while supporting cleaner and more efficient workplace operations.

Whether moving raw materials, finished goods, pallets, or equipment, Burgenton Electric Forklifts provide the reliability and performance needed to keep your operations moving.

Ideal For:

- Warehousing and Distribution Centres
- Manufacturing Facilities
- Agro-Processing Plants
- Food Processing Companies

- Logistics Companies
- Retail Distribution Centres
- Construction Material Yards
- Equipment Rental Companies

Key Benefits:

- ✓ Efficient Material Handling
- ✓ Low Operating and Maintenance Costs
- ✓ Quiet and Environmentally Friendly Operation
- ✓ Excellent Manoeuvrability in Confined Spaces
- ✓ Improved Workplace Productivity
- ✓ Reliable Performance for Daily Operations

Why Choose Burgenton Electric Forklifts?

Every Burgenton Electric Forklift is engineered to provide dependable performance, operator comfort, and long-term value. Backed by genuine spare parts, technical support, operator training, and warranty protection, our forklifts help customers improve operational efficiency while reducing total cost of ownership.

Available Configurations:

- Three-Wheel Electric Forklifts
- Four-Wheel Electric Forklifts
- Counterbalance Electric Forklifts
- Lithium Battery Models
- Lead-Acid Battery Models

Applications:

- Warehousing and Distribution
- Manufacturing Operations
- Food and Beverage Production
- Rice, Cassava, and Palm Oil Processing Facilities
- Cold Storage and Logistics Centres
- Ports and Inland Terminals
- Construction Material Handling
- Commercial and Industrial Facilities

3.1.7 Lift Platform

Safe Access. Greater Reach. Higher Productivity.

Burgenton Lift Platforms provide safe, reliable, and efficient elevated working solutions for construction, industrial maintenance, warehousing, facility management, and infrastructure projects.

Designed to improve productivity while enhancing workplace safety, our lift platforms enable operators to work confidently at height across a wide range of indoor and outdoor applications.

Whether carrying out building maintenance, equipment installation, warehouse operations, or construction activities, Burgenton Lift Platforms help businesses work smarter, safer, and more efficiently.

Ideal For:

- Construction Companies
- Facility Management Companies
- Warehousing and Logistics Operations
- Manufacturing Plants
- Airports and Transport Facilities
- Shopping Centres and Commercial Buildings
- Industrial Maintenance Contractors
- Equipment Rental Companies

Key Benefits:

- ✓ Safe Working at Height
- ✓ Increased Productivity
- ✓ Easy Operation and Precise Positioning
- ✓ Reduced Dependence on Scaffolding
- ✓ Lower Labour and Setup Time
- ✓ Reliable Performance for Indoor and Outdoor Applications

Why Choose Burgenton Lift Platforms?

Every Burgenton Lift Platform is engineered to provide dependable performance, operator safety, and long-term reliability. Supported by genuine spare parts, technical assistance, operator training, and warranty protection, our equipment helps customers complete elevated work efficiently while maintaining the highest safety standards.

Available Configurations:

⇒ **Self-Propelled Hydraulic Scissor Lifts**

Designed for stable vertical lifting on level surfaces, these machines are ideal for warehouses, factories, commercial buildings, maintenance projects, and indoor construction work where productivity and manoeuvrability are essential.

Best Applications:

- Warehousing
- Manufacturing Facilities
- Shopping Centres
- Building Maintenance
- Indoor Construction

⇒ **Crawler (Track) Scissor Lifts**

Engineered with crawler tracks for enhanced stability and mobility on uneven or challenging terrain, these machines are well suited for outdoor construction projects and sites with soft or rough ground conditions.

Best Applications:

- Construction Sites
- Infrastructure Projects
- Landscaping
- Industrial Installations
- Outdoor Maintenance

⇒ **Articulating Boom Lifts**

Designed to provide exceptional horizontal and vertical reach, articulating boom lifts allow operators to work around obstacles and access difficult-to-reach areas safely and efficiently.

Best Applications:

- Building Construction
- Steel Structure Installation
- Industrial Maintenance
- Utility Projects
- Airports and Large Commercial Facilities

Applications:

- Building Construction
- Industrial Maintenance
- Equipment Installation
- Warehouse Operations

- Facility Maintenance
- Electrical and Mechanical Works
- Airports and Logistics Facilities
- Commercial Property Management

3.2.1 Cocoa Processing Equipment:

Unlocking Greater Value from Every Cocoa Bean

Burgenton Cocoa Processing Equipment is designed to help processors transform raw cocoa beans into high-quality value-added products efficiently, consistently, and profitably.

From bean preparation and roasting to grinding and cocoa butter extraction, our equipment supports businesses seeking to increase production capacity, improve product quality, and maximize the commercial value of their cocoa operations.

Whether you are establishing a new processing facility or expanding an existing operation, Burgenton provides reliable equipment solutions backed by technical support, genuine spare parts, and dependable warranty protection.

Ideal For:

- Cocoa Processing Companies

- Agricultural Cooperatives
- Food Manufacturers
- Chocolate Manufacturers
- Cocoa Export Processors
- Government and Development Projects
- Agribusiness Investors

Key Benefits:

- ✓ Efficient and Consistent Processing
- ✓ Improved Product Quality
- ✓ Increased Production Capacity
- ✓ Higher Value Addition
- ✓ Reduced Processing Losses
- ✓ Reliable and Durable Performance

Why Choose Burgenton Cocoa Processing Equipment?

Every Burgenton Cocoa Processing solution is engineered to deliver dependable performance, operational efficiency, and long-term value. Supported by genuine spare parts, technical expertise, operator guidance, and warranty protection, our equipment helps processors achieve higher productivity while producing premium-quality cocoa products.

Available Configurations:

- Cocoa Bean Cleaning Systems
- Cocoa Roasting Systems
- Cocoa Winnowing Equipment
- Cocoa Grinding Systems
- Cocoa Liquor Production Lines
- Cocoa Butter Presses
- Cocoa Powder Processing Equipment
- Integrated Cocoa Processing Lines

Applications:

- Cocoa Bean Processing
- Cocoa Liquor Production
- Cocoa Butter Extraction
- Cocoa Powder Manufacturing
- Chocolate Manufacturing
- Food and Beverage Production
- Export-Oriented Cocoa Processing

3.2.4 Cashew Processing Equipment:

Adding Value from Farm to Market

Burgenton Cashew Processing Equipment is designed to help processors transform raw cashew nuts into premium-quality kernels efficiently, safely, and profitably.

From drying and shelling to peeling, grading, and packaging, our equipment supports businesses seeking to improve processing efficiency, increase product quality, and maximize the value of every harvest.

Whether you are establishing a new processing facility or expanding an existing operation, Burgenton provides dependable equipment solutions backed by technical support, genuine spare parts, and reliable warranty protection.

Ideal For:

- Cashew Processing Companies
- Agricultural Cooperatives
- Food Processing Companies
- Cashew Export Processors
- Agribusiness Investors
- Government and Development Projects
- Small and Medium Processing Enterprises
-

Key Benefits:

- ✓ Improved Processing Efficiency
- ✓ Higher Kernel Recovery Rates
- ✓ Consistent Product Quality
- ✓ Reduced Product Losses
- ✓ Increased Production Capacity
- ✓ Reliable Long-Term Performance

Why Choose Burgenton Cashew Processing Equipment?

Every Burgenton Cashew Processing solution is engineered to deliver dependable performance and long-term value. Supported by genuine spare parts, technical assistance, operator guidance, and warranty protection, our equipment helps processors improve productivity while producing premium-quality cashew products for domestic and international markets.

Available Configurations:

- Raw Cashew Drying Systems
- Cashew Shelling Machines
- Kernel Drying Systems
- Cashew Peeling Machines
- Kernel Grading Equipment
- Cashew Packaging Systems
- Integrated Cashew Processing Lines

Applications:

- Raw Cashew Processing
- Cashew Kernel Production
- Food Manufacturing
- Export Processing Facilities
- Agricultural Cooperatives
- Commercial Cashew Processing Plants

[VIEW SOLUTIONS]

ADD A ROW OF TRUST INDICATORS JUST BELOW THE HERO BANNER:

2-Year Warranty | Genuine Spare Parts | Technical Support | Dealer Network | Fast Delivery

3.2.5 Packaging Solutions:

Protecting product quality while enhancing market readiness.

Burgenton Packaging Solutions help businesses improve efficiency, consistency, and presentation across a wide range of agricultural and food products.

Applications:

- Food Packaging
- Agricultural Products
- Consumer Goods

[VIEW SOLUTIONS]

Food Processing Equipment:

Advanced processing solutions for food manufacturers and agro-processors.

Equipment designed to improve efficiency, consistency, and product quality throughout the production process.

Applications:

- Food Manufacturing
- Industrial Processing
- Commercial Production Facilities

[VIEW SOLUTIONS]

3.3 SPARE PARTS

Genuine Burgenton Parts:

Keeping Your Equipment Running

Equipment performance depends on the quality of its components.

Burgenton Genuine Parts are designed to maintain performance, reliability, and equipment lifespan while reducing costly downtime.

Engineered specifically for Burgenton equipment to ensure optimal performance and compatibility.

Benefits:

- Guaranteed Fit
- Improved Reliability

- Extended Equipment Life
- Manufacturer Assurance

[REQUEST PARTS]

3.3.1 Maintenance Kits:

Simplifying routine maintenance and preventive servicing.

Available kits include essential components required for scheduled equipment maintenance, helping customers maximize uptime and operational efficiency.

[LEARN MORE]

3.3.2 Consumables:

Essential operating and maintenance products designed to support equipment performance and reliability.

Available products include:

- Filters
- Lubricants
- Hydraulic Components
- Wear Parts
- Service Components

WHY BUY BURGENTON? (THIS SHOULD BE LIKE A BANNER UNDER THE PRODUCT PAGE)

Choosing equipment is about more than specifications.

It is about selecting a partner that will support your business long after the purchase.

At Burgenton Equipment, every machine is backed by our commitment to performance, reliability, and customer success.

Engineered For African Conditions:

Our equipment is selected and configured to perform effectively in demanding operating environments, helping customers maintain productivity in real-world conditions.

Genuine Spare Parts Support:

Equipment downtime costs money.

Burgenton maintains a commitment to genuine spare parts availability, helping customers reduce downtime and protect equipment performance throughout its lifecycle.

Comprehensive Warranty Protection:

Every eligible Burgenton machine is backed by warranty coverage, giving customers confidence in their investment and peace of mind during operation.

Technical Expertise:

Our technical support team is available to assist with product selection, commissioning, troubleshooting, maintenance guidance, and operational best practices.

Training & Operator Support:

Well-trained operators achieve better performance, improved safety, and lower operating costs.

We provide guidance and support to help customers maximize equipment productivity.

Long-Term Partnership:

Our relationship with customers does not end after delivery.

We are committed to supporting our customers throughout the entire equipment lifecycle.

Trusted Value:

Burgenton combines dependable performance, responsive support, and long-term reliability to deliver exceptional value and ownership confidence.

PAGE 4: SOLUTIONS

Equipment Solutions for Growth and Productivity.

Across Africa, businesses are building infrastructure, expanding agricultural production, and creating new opportunities for economic development.

Burgenton Equipment supports these ambitions with reliable construction and agro-processing solutions designed to improve efficiency, productivity, and long-term profitability.

Whether you are developing housing projects, constructing roads, processing agricultural products, or expanding manufacturing operations, Burgenton provides equipment solutions that help you achieve your goals.

4.1 CONSTRUCTION SOLUTIONS

Building the infrastructure that powers growth.

Construction projects require reliable equipment capable of delivering performance under demanding conditions. Burgenton construction solutions are designed to support contractors, developers, and project owners throughout every stage of project execution.

4.1.1 Housing Development

Building Communities with Confidence

Africa's growing population continues to drive demand for quality, affordable, and sustainable housing. Delivering residential projects successfully requires reliable equipment that improves productivity, controls costs, and helps developers meet construction timelines.

Burgenton provides practical equipment solutions that support every stage of residential construction, from site preparation and concrete production to block manufacturing, material handling, and safe access for finishing works.

Whether you are developing affordable housing, private residential estates, mixed-use developments, or community housing projects, Burgenton helps you build more efficiently and with greater confidence.

Challenges We Help Solve:

- Increasing construction costs
- Project delays and tight delivery schedules
- Inconsistent concrete production
- Dependence on external block suppliers
- Labour shortages and productivity challenges
- Safe access for elevated construction and finishing work

Recommended Burgenton Solutions

Self-Loading Concrete Mixers

Produce, transport, and discharge concrete directly on-site, reducing reliance on external ready-mix suppliers and improving project flexibility.

Mobile / Compact Concrete Batching Plants

Deliver consistent, high-quality concrete production for medium to large residential developments while minimizing transportation costs and improving supply reliability.

Block Making Machines

Produce quality concrete blocks on-site or nearby, helping developers improve quality control, reduce material costs, and maintain a consistent supply throughout the project.

Backhoe Loaders

A versatile solution for site preparation, trenching, excavation, loading, and material handling, allowing one machine to perform multiple essential construction tasks.

Lift Platforms

Provide safe and efficient access for plastering, painting, electrical installation, glazing, façade work, and finishing activities, improving productivity while enhancing workplace safety.

Electric Forklifts

Support the efficient movement of construction materials, pallets, and finished products within warehouses, production yards, and large construction sites.

Benefits to Your Project

- ✓ Faster Project Delivery
- ✓ Improved Construction Productivity
- ✓ Reliable On-Site Concrete Production

- ✓ Lower Material Handling Costs
- ✓ Better Quality Control
- ✓ Improved Worker Safety
- ✓ Reduced Equipment Downtime
- ✓ Dependable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Housing Development?

At Burgenton, we understand that successful housing developments depend on reliable equipment, efficient operations, and trusted support.

Our construction solutions are backed by genuine spare parts, comprehensive warranty protection, technical expertise, and a commitment to helping developers deliver quality homes on time and within budget.

Whether your project involves a small residential estate or a large-scale housing development, Burgenton provides the equipment solutions to help you build with confidence.

[DISCUSS YOUR HOUSING PROJECT]

4.1.2 Road Construction and Maintenance

Building Better Roads. Connecting Communities.

Reliable road infrastructure is essential for economic growth, improved mobility, and community development. From rural access roads and urban streets to highways and rehabilitation projects, successful road construction depends on dependable equipment that delivers productivity, precision, and efficiency.

Burgenton provides practical equipment solutions designed to support contractors, municipalities, and infrastructure developers in delivering road projects safely, efficiently, and on schedule.

Whether constructing new roads, upgrading existing infrastructure, or carrying out road maintenance works, Burgenton helps customers complete projects with confidence.

Challenges We Help Solve

- Delays caused by unreliable equipment
- Inconsistent concrete production
- High labour and operating costs

- Material handling inefficiencies
- Equipment mobility between multiple project sites
- Safe access for bridge, drainage, and lighting installation works

Recommended Burgenton Solutions

Self-Loading Concrete Mixers

Produce, transport, and discharge concrete directly on-site, providing flexibility for road construction, culverts, drainage systems, sidewalks, and concrete pavement works.

Mobile / Compact Concrete Batching Plants

Deliver consistent, high-quality concrete close to the construction site, reducing transportation costs and ensuring a reliable supply throughout the project.

Backhoe Loaders

Perform multiple essential tasks including excavation, trenching, loading, backfilling, and site preparation with one versatile machine, reducing the need for multiple pieces of equipment.

Lift Platforms

Provide safe access for bridge maintenance, street lighting installation, overhead signage, utility works, and elevated infrastructure maintenance.

Electric Forklifts

Support efficient movement of construction materials, pallets, pipes, equipment, and supplies within project yards, storage facilities, and logistics centres.

Benefits to Your Project

- ✓ Faster Project Delivery
- ✓ Improved Site Productivity
- ✓ Consistent Concrete Quality
- ✓ Lower Equipment Ownership Costs
- ✓ Greater Operational Flexibility
- ✓ Enhanced Worker Safety
- ✓ Reliable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Road Construction?

Road construction projects demand equipment that performs reliably under challenging conditions while keeping projects on schedule and within budget.

Burgenton combines dependable equipment, genuine spare parts, technical expertise, and warranty protection to help contractors deliver quality infrastructure with confidence.

From municipal road improvements to regional infrastructure projects, Burgenton is your trusted equipment partner for efficient and reliable road construction.

[DISCUSS YOUR ROAD CONSTRUCTION PROJECT]

4.1.3 Infrastructure Projects

Building the Foundations of Africa's Future

Modern infrastructure is the backbone of economic growth, connecting communities, supporting industries, and improving quality of life.

From transportation networks and public utilities to industrial developments and community facilities, successful infrastructure projects require reliable equipment that delivers performance, efficiency, and long-term value.

Burgenton provides practical construction equipment solutions that help contractors, developers, government agencies, and infrastructure companies deliver projects safely, efficiently, and on schedule.

Whether developing new infrastructure or upgrading existing facilities, Burgenton is committed to supporting projects that drive sustainable development across Africa.

Challenges We Help Solve

- Tight project delivery schedules
- Equipment reliability and downtime
- High operational and maintenance costs
- Efficient material handling
- Concrete production consistency
- Safe access for installation and maintenance works
- Managing multiple construction activities with versatile equipment

Recommended Burgenton Solutions

Self-Loading Concrete Mixers

Produce, transport, and discharge concrete directly on-site, providing flexibility for infrastructure works in urban and remote locations.

Mobile / Compact Concrete Batching Plants

Deliver accurate, consistent concrete production close to project sites, improving productivity while reducing transportation costs.

Backhoe Loaders

Perform multiple site operations including excavation, trenching, backfilling, loading, and utility installation with one versatile machine.

Block Making Machines

Produce quality concrete blocks for drainage systems, retaining walls, utility structures, boundary walls, public facilities, and community infrastructure.

Lift Platforms

Provide safe and efficient access for bridge maintenance, utility installation, electrical works, lighting systems, industrial construction, and elevated maintenance activities.

Electric Forklifts

Support efficient movement of materials, equipment, and supplies across warehouses, fabrication yards, logistics centres, and construction sites.

Applications

- Roads and Highways
- Bridges and Flyovers
- Public Buildings
- Water Supply and Drainage Projects
- Industrial Parks
- Airports and Transport Facilities
- Ports and Logistics Infrastructure
- Power and Utility Projects
- Educational and Healthcare Facilities
- Community Development Projects

Benefits to Your Project

- ✓ Increased Construction Productivity
- ✓ Reliable On-Site Concrete Production
- ✓ Lower Equipment Investment Costs
- ✓ Improved Project Flexibility
- ✓ Enhanced Worker Safety
- ✓ Efficient Material Handling
- ✓ Reduced Downtime
- ✓ Dependable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Infrastructure Projects?

Infrastructure development requires equipment that can perform across diverse project environments while maintaining reliability and efficiency.

Burgenton delivers practical equipment solutions backed by genuine spare parts, comprehensive warranty protection, technical expertise, and responsive customer support.

Our goal is to help contractors and project owners deliver infrastructure that strengthens communities, supports economic growth, and creates lasting value.

Whether you are developing transport infrastructure, public facilities, industrial projects, or community assets, Burgenton is your trusted equipment partner.

[DISCUSS YOUR INFRASTRUCTURE PROJECT]

4.1.4 Commercial Projects

COMMERCIAL PROJECTS

Supporting Business Growth Through Reliable Equipment

Commercial developments are essential to economic growth, creating the facilities where businesses operate, manufacture, store, distribute, and serve customers.

From office buildings and shopping centres to warehouses, factories, logistics hubs, and agro-processing facilities, successful commercial projects require dependable equipment that delivers productivity, efficiency, and long-term performance.

Burgenton provides practical equipment solutions that help developers, contractors, manufacturers, and business owners complete commercial projects safely, efficiently, and on schedule.

Whether constructing a new facility or expanding an existing operation, Burgenton is committed to supporting projects that drive business growth and investment across Africa.

Challenges We Help Solve

- Tight construction schedules
- Rising project costs
- Reliable on-site concrete production
- Efficient material handling

- Safe access for elevated construction and maintenance work
- Equipment versatility across multiple project phases

Recommended Burgenton Solutions

Self-Loading Concrete Mixers

Produce, transport, and discharge concrete directly on-site, helping contractors improve productivity while reducing dependence on external concrete supply.

Mobile / Compact Concrete Batching Plants

Provide consistent, high-quality concrete production for medium to large commercial developments with the flexibility to relocate as projects progress.

Backhoe Loaders

Handle excavation, trenching, loading, backfilling, and site preparation using one versatile machine, reducing equipment requirements and improving operational efficiency.

Block Making Machines

Produce high-quality concrete blocks for warehouses, commercial buildings, boundary walls, utility structures, and industrial facilities while improving quality control and reducing material costs.

Lift Platforms

Enable safe and efficient working at height for steel erection, façade installation, electrical works, HVAC installation, glazing, painting, signage installation, and ongoing facility maintenance.

Electric Forklifts

Support efficient movement of construction materials during project delivery and continue adding value after completion through warehouse operations, manufacturing, and logistics activities.

Applications

- Office Buildings
- Shopping Centres
- Warehouses and Distribution Centres
- Manufacturing Facilities
- Agro-Processing Plants
- Hotels and Hospitality Developments
- Logistics Hubs
- Industrial Buildings

- Business Parks
- Mixed-Use Commercial Developments

Benefits to Your Project

- ✓ Faster Construction Timelines
- ✓ Improved Site Productivity
- ✓ Reliable Concrete Production
- ✓ Reduced Equipment Ownership Costs
- ✓ Efficient Material Handling
- ✓ Enhanced Worker Safety
- ✓ Reduced Downtime
- ✓ Dependable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Commercial Projects?

Commercial developments demand equipment that delivers reliable performance from construction through daily operations.

Burgenton provides practical equipment solutions supported by genuine spare parts, comprehensive warranty protection, technical expertise, and responsive after-sales service.

Our equipment helps businesses build with confidence, operate more efficiently, and create facilities that support long-term commercial success.

Whether you are developing a warehouse, manufacturing plant, retail centre, processing facility, or corporate headquarters, Burgenton is your trusted equipment partner.

[DISCUSS YOUR COMMERCIAL PROJECT]

4.2 AGRICULTURAL SOLUTIONS

Creating Value Through Agricultural Processing

Agriculture remains one of Africa's most important economic sectors.

Burgenton Agro-Processing Solutions help businesses transform raw agricultural products into higher-value products, increasing profitability while supporting food security and industrial growth.

4.2.1 Farm and Primary Processing

Transforming Harvests into Higher Value Products

Successful agriculture extends beyond production. The greatest opportunities are created when agricultural products are processed closer to where they are grown.

Burgenton Farm Processing Solutions help farmers, cooperatives, agribusinesses, and rural enterprises convert raw agricultural produce into higher-value products, improving product quality, reducing post-harvest losses, and increasing profitability.

By supporting efficient farm-level and community-based processing, Burgenton contributes to stronger agricultural value chains and more sustainable rural economies across Africa.

Whether processing rice, cassava, palm fruit, cocoa, or cashew, our equipment is designed to help customers add value with confidence.

Challenges We Help Solve

- High post-harvest losses
- Limited local processing capacity
- Dependence on selling raw agricultural products
- Inconsistent product quality
- Limited access to value-added markets
- Inefficient processing methods

Recommended Burgenton Solutions

Rice Processing Equipment

Improve milling efficiency, grain quality, and production capacity while producing market-ready rice for local and export markets.

Cassava Processing Equipment

Process cassava into flour, starch, chips, and other value-added products with greater efficiency and consistency.

Palm Oil Processing Equipment

Increase extraction efficiency and improve product quality through reliable processing solutions for small, medium, and commercial operations.

Cocoa Processing Equipment

Transform cocoa beans into value-added products such as cocoa liquor, cocoa butter, and cocoa powder, supporting higher-value processing opportunities.

Cashew Processing Equipment

Improve kernel recovery, product quality, and processing efficiency through modern shelling, peeling, grading, and packaging solutions.

Packaging Solutions

Prepare processed products for storage, transportation, retail, and export with reliable packaging systems that enhance product presentation and protect quality.

Applications

- Commercial Farms
- Agricultural Cooperatives
- Rural Processing Centres
- Agribusiness Enterprises
- Food Processing Companies
- Export-Oriented Processing Facilities
- Community Development Projects

Benefits to Your Business

- ✓ Reduced Post-Harvest Losses
- ✓ Increased Product Value
- ✓ Improved Processing Efficiency
- ✓ Better Product Quality
- ✓ Greater Market Access
- ✓ Increased Profitability
- ✓ Reliable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Farm Processing?

Burgenton understands that adding value at the source creates stronger businesses and more resilient agricultural communities.

Our processing equipment is backed by genuine spare parts, warranty protection, technical expertise, and responsive customer support, helping businesses process more efficiently and compete in higher-value markets.

Whether you are upgrading an existing operation or establishing a new processing facility, Burgenton provides dependable equipment solutions that help transform agricultural potential into sustainable business growth.

[DISCUSS YOUR FARM PROCESSING PROJECT]

4.2.2 Cooperative Processing Centers

Empowering Farmers Through Shared Processing Solutions

Agricultural cooperatives play a vital role in improving farmers' incomes, strengthening rural economies, and expanding access to local and international markets.

By investing in shared processing facilities, cooperatives can reduce post-harvest losses, improve product quality, increase production capacity, and create greater value for their members.

Burgenton provides practical agro-processing equipment solutions that enable cooperatives to process agricultural products efficiently, operate sustainably, and support long-term community development.

Whether serving a small farming community or a large regional cooperative, Burgenton helps transform agricultural production into higher-value commercial opportunities.

Challenges We Help Solve

- Limited access to processing equipment
- High post-harvest losses
- Inconsistent product quality
- Low returns from selling raw agricultural produce
- Limited market competitiveness
- Growing demand for value-added agricultural products

Recommended Burgenton Solutions

Rice Processing Equipment

Enable cooperatives to mill, grade, and package quality rice that meets commercial market standards.

Cassava Processing Equipment

Support the production of cassava flour, starch, chips, and other value-added products with improved efficiency and consistency.

Palm Oil Processing Equipment

Improve extraction rates, product quality, and processing capacity while increasing the commercial value of palm fruit.

Cocoa Processing Equipment

Support the production of cocoa liquor, cocoa butter, and cocoa powder, enabling cooperatives to participate in higher-value segments of the cocoa industry.

Cashew Processing Equipment

Improve kernel recovery, product quality, and export readiness through efficient shelling, peeling, grading, and packaging systems.

Packaging Solutions

Prepare finished products for retail, wholesale, institutional supply, and export with professional packaging solutions that protect quality and enhance market appeal.

Applications

- Farmers' Cooperatives
- Community Processing Centres
- Agricultural Associations
- Rural Development Programmes
- Government Agricultural Projects
- NGO and Development Agency Initiatives
- Shared Commercial Processing Facilities

Benefits to Your Cooperative

- ✓ Increased Member Income
- ✓ Reduced Post-Harvest Losses
- ✓ Higher Product Quality
- ✓ Greater Processing Capacity
- ✓ Improved Market Access
- ✓ Increased Value Addition
- ✓ Sustainable Community Development
- ✓ Reliable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Cooperative Processing Centres?

Burgenton believes that shared processing facilities create stronger farming communities and more resilient agricultural value chains.

Our equipment is backed by genuine spare parts, warranty protection, technical expertise, and responsive after-sales support, helping cooperatives operate efficiently while creating lasting economic value for their members.

Whether your cooperative is processing rice, cassava, palm oil, cocoa, or cashew, Burgenton provides dependable equipment solutions that help farmers grow together, compete effectively, and build a more sustainable future.

[DISCUSS YOUR COOPERATIVE PROCESSING PROJECT]

4.2.3 Industrial Food Production

Powering Africa's Next Generation of Food Processing

Africa's growing population, expanding urban centres, and increasing demand for high-quality food products are driving the need for modern, efficient food processing facilities.

Burgenton provides reliable agro-processing equipment solutions that help food manufacturers, processors, and agribusinesses increase production capacity, improve product quality, and operate more efficiently.

Whether producing staple foods for domestic markets or value-added products for regional and international export, Burgenton supports businesses with equipment designed for consistent performance, operational reliability, and long-term growth.

Challenges We Help Solve

- Limited production capacity
- Inconsistent product quality
- High processing costs
- Inefficient production processes
- Product losses and waste
- Growing demand for packaged, value-added food products

Recommended Burgenton Solutions

Rice Processing Equipment

Produce premium-quality milled rice through efficient cleaning, milling, polishing, grading, and packaging systems.

Cassava Processing Equipment

Process cassava into flour, starch, chips, and other industrial food ingredients with improved efficiency and product consistency.

Palm Oil Processing Equipment

Support efficient palm oil extraction and processing while improving product quality and maximizing production output.

Cocoa Processing Equipment

Produce cocoa liquor, cocoa butter, and cocoa powder for food manufacturing, confectionery, and export markets.

Cashew Processing Equipment

Transform raw cashew nuts into premium kernels through efficient shelling, drying, peeling, grading, and packaging processes.

Packaging Solutions

Protect product quality, improve shelf presentation, and prepare finished goods for wholesale, retail, and export markets through modern packaging systems.

Applications

- Food Manufacturing Companies
- Agro-Processing Industries
- Commercial Processing Plants
- Export Processing Facilities
- Industrial Food Production Companies
- Agribusiness Investors
- Government and Private Industrial Projects

Benefits to Your Business

- ✓ Increased Production Capacity
- ✓ Consistent Product Quality
- ✓ Improved Processing Efficiency
- ✓ Reduced Product Losses
- ✓ Lower Operating Costs
- ✓ Greater Market Competitiveness
- ✓ Reliable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Industrial Food Production?

Industrial food production demands equipment that delivers reliable performance, consistent product quality, and operational efficiency every day.

Burgenton provides practical processing solutions backed by genuine spare parts, comprehensive warranty protection, technical expertise, and responsive after-sales support.

Our goal is to help food manufacturers build efficient production facilities, increase profitability, and supply high-quality products to local, regional, and international markets.

Whether you are expanding an existing factory or establishing a new processing facility, Burgenton is your trusted equipment partner for sustainable industrial food production.

[DISCUSS YOUR FOOD PROCESSING PROJECT]

4.2.4 Value Addition Projects

Creating Greater Value. Building Stronger Businesses.

Africa produces some of the world's most valuable agricultural commodities. Yet, much of this produce is still exported in its raw form, limiting income opportunities, industrial growth, and local economic development.

At Burgenton, we believe the greatest opportunities lie in processing agricultural products closer to where they are grown.

Our value addition solutions help businesses transform raw agricultural produce into higher-value products that generate greater returns, create employment, strengthen local industries, and improve access to domestic and international markets.

Whether you are establishing a new processing facility or expanding an existing operation, Burgenton provides reliable equipment solutions that support sustainable business growth and long-term competitiveness.

Challenges We Help Solve

- Dependence on exporting raw agricultural commodities
- Limited local processing capacity
- Low product value and profitability
- High post-harvest losses
- Inconsistent product quality
- Limited access to premium domestic and export markets

Recommended Burgenton Solutions

Rice Processing Equipment

Produce premium-quality milled rice through efficient cleaning, milling, grading, and packaging, creating greater value than selling unprocessed paddy.

Cassava Processing Equipment

Transform cassava into flour, starch, chips, and other commercial products that serve food, industrial, and export markets.

Palm Oil Processing Equipment

Improve extraction efficiency and produce high-quality crude and refined palm oil to meet growing consumer and industrial demand.

Cocoa Processing Equipment

Convert cocoa beans into cocoa liquor, cocoa butter, and cocoa powder, unlocking significantly greater commercial value through local processing.

Cashew Processing Equipment

Process raw cashew nuts into premium kernels ready for retail, food manufacturing, and export, increasing profitability while reducing dependence on raw commodity sales.

Packaging Solutions

Present finished products in professional, market-ready packaging that protects quality, extends shelf life, and strengthens brand competitiveness.

Applications

- Agribusiness Investments
- Commercial Processing Facilities
- Agricultural Cooperatives
- Food Manufacturing Companies
- Export-Oriented Processing Plants
- Government and Development Projects
- Rural Industrial Development Initiatives
-

Benefits to Your Business

- ✓ Increased Product Value
- ✓ Higher Profit Margins
- ✓ Reduced Post-Harvest Losses
- ✓ Improved Product Quality
- ✓ Greater Market Access
- ✓ Enhanced Export Competitiveness
- ✓ Stronger Supply Chain Integration
- ✓ Reliable Technical Support and Genuine Spare Parts

Why Choose Burgenton for Value Addition Projects?

At Burgenton, we believe processing is the key to unlocking Africa's agricultural potential.

Our equipment is designed to help businesses move beyond the sale of raw commodities by creating high-quality, value-added products that compete successfully in domestic, regional, and international markets.

Supported by genuine spare parts, comprehensive warranty protection, technical expertise, and responsive after-sales service, Burgenton provides dependable equipment solutions that help businesses grow with confidence.

Whether your project focuses on rice, cassava, palm oil, cocoa, or cashew, Burgenton is your trusted partner for building sustainable value-added industries across Africa.

[DISCUSS YOUR VALUE ADDITION PROJECT]

WHY CHOOSE BURGENTON SOLUTIONS? (THIS SHOULD BE LIKE A BOTTOM BANNER FOR EACH OF THE PAGES UNDER THIS SECTION)

Every project is different.

Our team works closely with customers to understand operational requirements and recommend practical equipment solutions that deliver long-term value.

With Burgenton, you gain more than equipment.

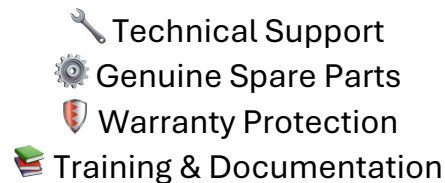

You gain a partner committed to your success through reliable products, technical support, genuine spare parts, and dependable warranty protection.

[CONTACT A BURGENTON SPECIALIST]

PAGE 5: SUPPORT

Support Promise

Our goal is simple: maximize uptime, protect your investment, and help your business operate with confidence.

At Burgenton Equipment, our commitment to customers extends far beyond equipment delivery.

We understand that reliable support is essential to maintaining productivity, minimizing downtime, and protecting your investment.

Our support services are designed to help customers maximize equipment performance throughout its lifecycle.

Whether you require technical guidance, spare parts, maintenance support, or operator training, our team is committed to helping you achieve long-term success.

5.1 WARRANTY PROGRAM

Confidence in Every Burgenton Machine

Every Burgenton machine is backed by a comprehensive warranty program designed to provide peace of mind and confidence in your investment.

Our warranty coverage reflects our commitment to quality, reliability, and customer satisfaction.

The Burgenton Warranty Program helps customers operate with confidence, knowing that support is available when needed.

Benefits:

- ✓ Protection against manufacturing defects
- ✓ Improved ownership confidence
- ✓ Reliable customer support
- ✓ Long-term equipment value

[LEARN MORE ABOUT WARRANTY COVERAGE]

5.2 SPARE PARTS SUPPORT

Genuine Parts. Reliable Performance.

Equipment reliability depends on the quality and availability of replacement parts.

Burgenton provides access to genuine spare parts designed specifically for our equipment, helping customers maintain performance, safety, and operational efficiency.

Our spare parts support program is focused on reducing downtime and keeping your equipment running when it matters most.

Available Support:

- ✓ Genuine Burgenton Parts
- ✓ Maintenance Components
- ✓ Wear Parts
- ✓ Filters and Consumables
- ✓ Technical Parts Assistance

Benefits:

- ✓ Reduced downtime

- ✓ Improved equipment lifespan

- ✓ Guaranteed compatibility

- ✓ Consistent performance

[REQUEST SPARE PARTS]

5.3 TECHNICAL ASSISTANCE

Expert Support When You Need It

Our technical support team is available to assist customers throughout the equipment lifecycle.

Whether you require help with installation, troubleshooting, maintenance planning, or operational guidance, Burgenton specialists are ready to help.

Support Areas:

- ✓ Equipment Setup Guidance

- ✓ Troubleshooting Assistance

- ✓ Product Performance Support

- ✓ Maintenance Recommendations

- ✓ Technical Consultations

Benefits:

- ✓ Faster problem resolution

- ✓ Reduced operational disruptions

- ✓ Improved equipment performance

- ✓ Greater ownership confidence

[CONTACT TECHNICAL SUPPORT]

5.4 OPERATOR TRAINING

Helping Operators Perform with Confidence

Well-trained operators are essential to achieving safe, productive, and efficient equipment operation.

Burgenton provides operator guidance and training support designed to help customers maximize equipment performance while reducing unnecessary wear and operational risks.

Training Areas:

- ✓ Equipment Operation
- ✓ Safety Procedures
- ✓ Daily Inspection Practices
- ✓ Basic Maintenance Checks
- ✓ Productivity Best Practices

Benefits:

- ✓ Improved productivity
- ✓ Enhanced operator safety
- ✓ Reduced equipment misuse
- ✓ Lower operating costs

[LEARN ABOUT TRAINING]

5.5 MAINTENANCE SERVICES

Protecting Equipment Performance

Preventive maintenance plays a critical role in maximizing equipment reliability and extending service life.

Burgenton helps customers implement effective maintenance practices that reduce downtime and improve operational efficiency.

Maintenance Support Includes:

- ✓ Preventive Maintenance Guidance
- ✓ Maintenance Schedules
- ✓ Service Recommendations
- ✓ Maintenance Kits
- ✓ Equipment Health Monitoring Advice

Benefits:

- ✓ Reduced breakdowns
- ✓ Improved equipment lifespan
- ✓ Lower operating costs
- ✓ Increased uptime

[REQUEST MAINTENANCE SUPPORT]

5.6 PRODUCT DOCUMENTATION

Information at Your Fingertips

Access to accurate equipment information helps customers operate and maintain equipment more effectively.

Burgenton provides comprehensive documentation to support equipment operation, servicing, and troubleshooting.

Available Resources:

- ✓ Operator Manuals
- ✓ Maintenance Guides
- ✓ Product Specifications
- ✓ Spare Parts Catalogues
- ✓ Safety Documentation

Benefits:

- ✓ Easier equipment operation
- ✓ Faster troubleshooting
- ✓ Improved maintenance planning
- ✓ Better equipment management

[ACCESS DOCUMENTATION]

THE BURGENTON SUPPORT ADVANTAGE (THIS SHOULD BE LIKE A BANNER BELOW EACH PAGE ON THIS SECTION)

Reliable equipment is only part of the equation.

What truly sets Burgenton apart is our commitment to supporting customers throughout the ownership journey.

When you choose Burgenton, you gain access to:

- ✓ Warranty Protection
- ✓ Genuine Spare Parts

✓ Technical Expertise

✓ Operator Support

✓ Maintenance Guidance

✓ Product Resources

Because your success is our priority.

[CONTACT THE BURGENTON SUPPORT TEAM]

PAGE 6: PROJECTS, DELIVERIES & SUCCESS STORIES

6.1 EQUIPMENT DELIVERIES

Delivering Confidence Across Africa

- Equipment arrival photos
- Customer handover photos
- Transport and logistics images

Every Burgenton equipment delivery marks the beginning of a long-term partnership.

We work closely with customers to ensure equipment is delivered efficiently, ready for operation, and supported by our warranty, spare parts, and technical support programs.

From construction equipment and material handling machinery to agro-processing solutions, Burgenton is committed to helping customers access the equipment they need to grow their businesses and achieve project success.

Our delivery process focuses on reliability, professionalism, and customer satisfaction.

6.2 PROJECT HIGHLIGHTS

Supporting Projects That Matter

- Before-and-after project photos
 - Project location
 - Equipment used
- Short project summary

Burgenton equipment is helping businesses and organizations complete important projects across construction, infrastructure, agriculture, and industry.

From housing developments and road construction projects to agricultural processing facilities and commercial developments, our equipment supports customers in achieving their operational goals efficiently and cost-effectively.

Each project demonstrates our commitment to quality, performance, and long-term customer success.

6.3 CUSTOMER SUCCESS STORIES

Success Measured by Customer Results

- Customer testimonial
 - Company logo
- Key results achieved
- Equipment supplied

At Burgenton, we believe our success is reflected in the achievements of our customers.

Our equipment helps contractors build faster, processors produce more efficiently, and businesses operate with greater confidence.

Through reliable equipment, technical support, and genuine spare parts availability, we help customers improve productivity, reduce downtime, and achieve sustainable growth.

Every success story strengthens our commitment to delivering practical solutions that create lasting value.

6.4 SITE INSTALLATIONS

Supporting Customers Beyond Delivery

- Equipment setup photos
- Commissioning activities
- Operator training sessions
- Equipment operating on-site

Successful equipment deployment requires more than simply delivering a machine.

Burgenton supports customers through installation guidance, commissioning assistance, operator familiarization, and technical support to help ensure equipment performs as expected from day one.

Our goal is to help customers achieve a smooth start-up process, maximize equipment performance, and build confidence in their investment.

By providing support throughout the installation and commissioning process, we help customers get the most from their Burgenton equipment.

PAGE 7: PARTNER & DEALER NETWORK

Grow With Burgenton

Burgenton Equipment is building a network of trusted partners across Africa to support the distribution, servicing, and growth of our construction and agro-processing equipment portfolio.

As infrastructure development and agricultural industrialization continue to accelerate across the continent, we are seeking capable partners who share our commitment to quality, reliability, and customer success.

Whether you are an equipment dealer, regional distributor, or technical service provider, we invite you to explore partnership opportunities with Burgenton.

7.1 BECOME A DEALER

Represent the Burgenton Brand in Your Market

Burgenton dealers play an important role in helping customers access reliable equipment solutions and professional support services.

As an authorized dealer, you will have the opportunity to market and sell Burgenton products while benefiting from product training, marketing support, and access to our growing equipment portfolio.

Ideal Dealer Partners:

- Equipment Dealers
- Construction Equipment Suppliers
- Agricultural Equipment Suppliers
- Industrial Equipment Businesses
- Equipment Rental Companies

Dealer Benefits:

- ✓ Access to Burgenton Products
- ✓ Sales and Product Training
- ✓ Marketing Support Materials
- ✓ Technical Support Assistance
- ✓ Warranty Support Framework
- ✓ Long-Term Growth Opportunities

Our objective is to help dealers build profitable and sustainable businesses while expanding the Burgenton brand across Africa.

[APPLY TO BECOME A DEALER]

7.2 REGIONAL DISTRIBUTORS

Expanding Burgenton's Presence Across Africa

Regional distributors help drive market development and product availability across larger geographic territories.

We are seeking established organizations with strong industry networks, market knowledge, and the capability to support customers across multiple regions.

Distributor Responsibilities:

- Territory Development
- Dealer Development
- Customer Relationship Management
- Market Expansion Activities
- Product Promotion
- Inventory Coordination

Ideal Distributor Profile:

- Established Equipment Companies
- Industrial Distribution Businesses
- Construction Industry Specialists
- Agricultural Equipment Distributors

Distributor Benefits:

- ✓ Regional Growth Opportunities
- ✓ Strategic Business Partnership
- ✓ Product and Technical Support
- ✓ Marketing Collaboration
- ✓ Long-Term Territory Development Potential

7.3 SERVICE PARTNERS

Supporting Equipment Performance and Customer Success

Reliable after-sales support is essential to maximizing equipment uptime and customer satisfaction.

Burgenton is developing a network of qualified service partners capable of supporting equipment inspections, maintenance, troubleshooting, repairs, and customer assistance.

Ideal Service Partners:

- Equipment Service Providers

- Mechanical Workshops
- Technical Service Companies
- Engineering Service Firms
- Mobile Maintenance Teams

Service Partner Benefits:

- ✓ Technical Training Opportunities
- ✓ Access to Genuine Spare Parts
- ✓ Service Business Growth
- ✓ Ongoing Technical Support
- ✓ Long-Term Customer Relationships

Together, we can help customers keep their equipment operating at peak performance.
